DIGITAL LITERACY

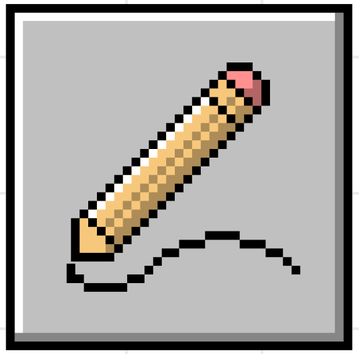
"USING TECHNOLOGY CONFIDENTLY, SAFELY, AND PROFESSIONALLY IN COLLEGE LIFE."

WHAT IS DIGITAL LITERACY?

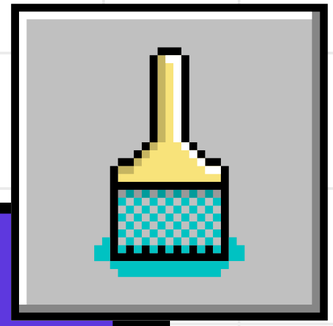
- Ability to find, understand, and use digital information.
- Using devices, apps, and the internet effectively for learning.
- Making smart, safe, and ethical choices online.

"More than computer skills – it is about thinking critically online."

ESSENTIAL TOOLS FOR STUDENTS



"Choose tools that sync across devices and keep your work backed up."



- Learning: Google Classroom, Google Drive, MS OneDrive.
- Coding & Projects: GitHub, VS Code, Online IDEs.
- Collaboration: Google Docs/Slides, Microsoft Teams, Zoom/Meet.
- Productivity: Google Calendar, Notion, Todoist or simple to-do apps.

SAFE INTERNET PRACTICES

DOs:

- Use strong, unique passwords and enable 2-factor authentication.
- Check website address (URL) before logging in or paying.
- Log out from shared or lab computers.
- Keep software and antivirus updated.

SAFE INTERNET PRACTICES

DON'Ts:

- Don’t share OTPs, passwords, or UPI PIN with anyone.
- Don’t click on suspicious links in emails, SMS, or WhatsApp.
- Don’t post personal details (ID card, timetable, location) publicly.

BUILD A PROFESSIONAL ONLINE PRESENCE

- Use a clean username and email ID for academic accounts.
- Keep LinkedIn and GitHub profiles updated with projects.
- Think before you post – your digital footprint is permanent.
